DETAILED ACTION

Amendment

1. Acknowledgment is made of Amendment filed April 25, 2006.

Allowable Subject Matter

2. Claims 1-7 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Yoshida (US 5,012,076) teaches an IC card case configured to house an IC card, the IC card case including an identification unit configured to determine whether or not the user is legitimate; a performing unit configured to perform user identification utilizing the identification unit, when the IC card is housed in the IC card case; and a transmission unit configured to transmit a signal to the IC card depending on a result of the user identification.

Okuno (US 5,310,998) teaches a computer system capable of connecting an IC card, when the IC card is extracted from an IC card holder, a door is opened. A detection signal is output from a detecting circuit to a bus controller by detecting opening of the door. Upon receiving the detection signal, a hold request signal is output from the bus controller to a CPU. In response to the hold request signal, a hold acknowledge signal is output from the CPU to the bus controller after the computer process to be executed is completed. A buffer control signal for disabling a buffer is output from the bus controller by receiving the hold acknowledge signal, thereby interrupting an access signal from the CPU, to hold a bus.

However, the best prior art of record fails to teach or fairly suggest a method of setting a validity period of an IC card comprising the step of preparing an IC card including a change unit whose state changes with lapse of time starting from an initial state without an external power, a

measuring unit configured to measure the state of the change unit so as to generate information indicating whether or not the validity period has elapsed, and an operation unit configured to be operable the information indicates that the validity period fails to have yet elapsed, and to be inoperable if the information indicates that the validity period has elapsed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
